

ASSESSMENT REPORT 2016 FOR INSTRUCTIONAL PROGRAMS

Name Wolanyo Kpo, PhD Program / Department: MARKETING

PART 1: ASSESSMENT REPORT

Evidence to Support Achievement of Student Learning

The results of student learning outcomes came from multiple sources - through direct assessment instruments and MFT external assessment, and indirect assessment instrument (Senior Exit Survey). The evidence of learning we present are based on: (1) Senior Exit Survey; and (2) ETS Capstone Exam, Major Field Test-Business. The ETS Capstone Exam (MFT-Business) for Fall 2016 was not administered due to financial/budgetary constraints at CSU. It was, however, administered in Spring 2016 for which data was available and presented. In past years, this assessment has been useful in examining our efforts internally and against other local institutions and national standards. Our assessment process has also led to implementation of some of the recommendations/suggestions made by students on our Exit Survey. For example, the desire by many respondents to start and run their own businesses prompted some curricular changes. Some of the implementations include introduction of Online and Hybrid courses, emphasis on data and spreadsheets in Accounting and Finance, intersession classes, focus on entrepreneurship as an area of concentration, as well as making more classes available for evening students. All these initiatives are directed toward enhancing course offerings and improving graduation rate.

Majority of our students can identify with the immediate and visible benefits that come with the assessment process such as providing equipment/technology to facilitate their learning process. There is need to continue to educate the students how the assessment process is in their best interest and therefore, should be given the utmost attention that it deserves. This is due to the fact that the assessment process tends to foster an environment that presents and promotes learning outcomes, performance between faculty, staff, and students on one hand, and allows students' input on the other.

The following Marketing Student Learning Outcomes (SLOs) are addressed below:

SLO1: Critically evaluate marketing functions performed by channel members in the industry.

SLO2: Organize thoughts to effectively communicate in any business environment.

SLO3: Integrate technology to provide solutions to marketing problems.

SLO4: Evaluate entrepreneurial opportunities.

SLO5: Integrate marketing concepts in a global business environment.

SLO6: Recognize the importance and contribution of organizational diversity in a business environment.

SLO7: Determine ethical issues and select appropriate actions.

1. EXIT SURVEY

The Senior Exit Survey captures graduating students' perceptions of:

A. University Programs - Evaluation of program offerings of CSU, COB, and Marketing. The level of student satisfaction was measured on a 5-point rating scale: 0=N/A; 1=Poor; 2= Adequate; 3=Good; 4=Excellent.

B. COB Experience - Overall satisfaction with their COB experience as assessed on a 5-point scale:

1= Very Dissatisfied; 2=Dissatisfied; 3=Not Sure; 4=Satisfied; 5= Very Satisfied.

C. Appreciation for Diversity – Students' understanding of the importance and contribution of diversity in business organizations was assessed on a 5-point rating scale:

1= Extremely Important; 2=Very Important; 3=Important; 4=Not Sure; 5= Not Important.

D. Employment & Graduate School Plans - Employment in major field of study or graduate school plans.

Summary of Data Trends

Sample: Seven (7) Marketing graduating seniors responded to the Senior Exit Survey, summary outcomes which are presented as follows:

Employment Plans: One (1) is currently employed in Marketing, their major field of study, two (2) have job offers in their major field of study.

Graduate School Plans: Three (3) plan to apply to graduate school within one year of Graduation.

Age Grouping Of Respondents:	<u>N</u>
Less than 20	0
20-26	5
26-30	1
31-40	0
Over 41	1

Gender Grouping of Respondents: There were three (3) females and four (4) male respondents.

High School Attended: Four (4) respondents attended Chicago Public Schools; Two (2) attended Suburban High Schools; and One (1) attended High School in other secondary school system prior to enrolling in Chicago State University.

Transfer Students: 6 respondents transferred from another tertiary institution, while one (1) did not attend a tertiary institution prior to enrollment at Chicago State University.

Associate Degrees: Three (3) respondents received an Associate Degree before enrolling at Chicago State University. One (1) did not have an Associate Degree.

Estimated GPA at time of Graduation:

<u>GPA</u>	<u>N</u>
Less 2.0	0
2.1 - 2.5	0
2.6 - 3.0	2
3.1 - 3.5	2
3.6 - 4.0	1

Enrollment Status:	<u>N</u>
Full Time - Day	4
Full Time - Evening	2
Part -Time - Day	1
Part -Time - Evening	0

COB Experience Satisfaction:	<u>N</u>
Very Dissatisfied	1
Dissatisfied	0
Not Sure	1
Satisfied	3
Very Satisfied	2

Perception of Importance Diversity:	<u>N</u>
Extremely Important	4
Very Important	3
Important	0
Not Important	0

Below are comments made by students on the Senior Exit Survey. We use these assessment in a feedback loop to improve our outcomes, whether positive or negative:

Student Comments on How to Improve Course Learning

- Spend more time explaining advertising.
- Focus more on the topic and spend more time on it.
- I would like to see more marketing Internship.
- I would like to see more real life event classes.

Brief General Comments/Statements

- Everything is dated and it has somewhat of a depressing environment. The teachers are snobby (Bibb) and absentminded (Osuji) and somewhere excellent (Knox, Kpo). Transferring from Robert Morris to CSU is like transferring from Jetsons to Flintstones literally. I couldn't wait to graduate to start the next chapter in my life! Sia Nara!!!
- My exp. was remarkable one that I couldn't experience at any other university. From the advisors, staff, and my coaches as well as the students that helped with my growth. The marketing program is well put together and has few weaknesses regarding the learning process, assignments and overall coverage of material. Exams are not difficult and professors are reasonable.
- My experience has been wonderful in mist of the chaos with the school closing my teachers still been heavily involved, I love to see my professors that have passion for teaching and seeing their students excel, there has never been a dull moment and it has

been a joy.

- My experience was good, the strengths at this school is that instructors care about students. The weaknesses are scheduling- many classes were not available through different times of the day which is very inconvenient.
- My experience was great. I am grateful to the COB and the marketing program for prepping me to do great things in my field.
- One of the weaknesses of CSU is there advising. I felt like I was in the dark with no plan as to what classes to take.

PART 3. APPENDIX: COB SENIOR EXIT SURVEY - MARKETING

Perceived Effectiveness of CSU General Education for Skill Development

Below, students rated their perceived effectiveness of CSU General Education courses in providing identified developmental skills using the scale below:

- 0 = N/A
- 1 = In-Effective
- 2 = Moderately In-Effective
- 3 = Effective
- 4 = Moderately Effective
- 5 = Very Effective

GenEd Skills: Write with Clarity		Total

2. MFT CAPSTONE EXAM

MFT Capstone Exam: An external direct standardized examination by Educational Testing Service (ETS), MFT Business, is administered consecutively each semester for the past three years. Developed and provided on-line by ETS, the Major Field Test (MFT) provides yet the most independent and unbiased assessment of what marketing and business students should know upon graduation. Minimum competency is determined by students scoring at or above 50th percentile of national comparison institutions.

Developed and provided on-line by ETS, the Major Field Test (MFT) provides yet the most independent and unbiased assessment of what marketing and business students should know upon graduation. MFT is a computerized two-hour external examination administered by Educational Testing Service (ETS) to measure students' mastery of their chosen field of study. We have used it in the COB administered consecutively each semester for the past three years to assess the effectiveness of major programs of study and improve curricula and student learning outcomes. The ETS Major Field Test in Business is a comprehensive undergraduate outcomes assessments designed to measure the critical knowledge and understanding obtained by students in Business. The test goes beyond the measurement of factual knowledge by helping COB evaluate students' ability to analyze and solve problems, understand relationships and interpret material from their major field of study.

ETS offers comprehensive national comparative data for the Major Field Tests, enabling COB to evaluate its students' performance and compare our program's effectiveness to programs at similar institutions locally and nationwide. Data from this capstone course assessment is disseminated to the Dean and faculty to inform our curriculum alignment and improvement efforts in the Department and College of Business curriculum. In the COB, the Major Field Test assists us in pursuing the following goals:

- preparing students to succeed by using test results to improve curricula
- demonstrating the strengths of our program to prospective students and faculty
- helping ensure our students have mastered their field of study
- using our time to focus on other aspects of accreditation

Outcomes: Marketing student performance in the capstone course is captured in the three tables below - marketing content area; mean component area scores; specific item analysis. Results allow our students can thus be compared within group (to themselves), and also to a national cohort. On majority of items, our students performed far below national norms collectively, and severally on most items over the past four years 2012-16. It is noteworthy, however, that a number of students distinguished themselves and scored at or above the 50th percentile ranking. Assessment indicators presented in the subsequent table shows an average of 30-46% correct in most areas.

(a) The total Business test consists of 120 items. Items not scored are denoted by a double asterisk "**".

(b) Based on Comparative Data population. Data ranges in date from September 2013 thru June 2015.

There are 9 Assessment Indicators (A)

A1 - Accounting	
A2 - Economics	
A3 - Management	
A4 - Quantitative Business Analysis	
A5 - Finance	
A6 - Marketing	
A7 - Legal and Social Environment	
A8 - Information Systems	
A9 - International Issues

Summary Evidence of Achievement Improvements

Instruments (Specify names)	2015/16 Results	Improvements	2016/17 Results
Spring 2016: ETS Capstone Exam (MFT-Business) N=32	14 students scored above 50 th percentile	2 students scored above 50 th percentile over previous semester	N/A
Fall 2015: ETS Capstone Exam (MFT-Business) N=28	12 students scored above 50 th percentile	7 students scored above 50 th percentile over previous semester	N/A
Spring 2015: ETS Capstone Exam (MFT-Business) N=47	5 students scored above 50 th percentile	Baseline data	N/A

3. OTHER STUDENT LEARNING INDICATORS

MKTG Courses: Student learning outcomes (SLOs) are directly measured at multiple points within each course offering, using multiple criteria including quizzes, tests, examinations, oral and written reports, teacher and peer evaluations, a multi-criteria, multi-method approach. Thus progressively, our students move from the general knowledge base, framework, foundations, and overviews to more comprehensive synthesis and applications in higher level courses and reflected in course grades.

BLP 3207: In BLP 3207 students demonstrate the following competences in a “hands-on” course in which students apply their knowledge, skills, and abilities in marketing directly, with a minimum of C grade:

- Plan and implement a complex project within a finite time period.
- Apply marketing theory to organizational cultural environments.
- Coordinate financial resources, materials, and machines to solve marketing problems.
- Employ people skills to solve marketing problems.
- Develop benchmarks to measure progress against project activities.

MGMT 4890: In MGMT 4890 which is the capstone course, students synthesize and apply all the knowledge, skills and abilities they have acquired throughout their college career in business. Learning outcomes are directly assessed through weekly group student presentations (oral and written); performing case analyses of real organizations; and final report developing a strategic plan for CSU to address recruitment, retention, graduation, graduate school enrollment and job placement. Minimum competency is demonstrated in an overall grade of a C or better in the course.

Analysis and Program Change

Strengths: Real world experience is brought into the class room through interaction between corporate executives, business owners, faculty, staff, and students. Over the past two years the COB has engaged in International Internships in Ghana in both local and international organizations in that country, in addition to national/local internships. Students have performed exceptionally well in these placements with employers clamoring for more interns each year from CSU. This confidence and assurance impacts demagoguery and class room delivery of instructional materials as we continue to enrich student learning and experience.

Weaknesses: Although both student exit reports and COB internal course direct assessment standards point to achievement successes in student outcomes, the independent external ETS-MFT Business assessment suggests differently – our overall student achievement outcomes are consistently below national comparison norms in the years under consideration, 2012-2016. Both total curriculum changes and specific curricular content and sub-content area emphasis in identified deficient areas in first table will improve performance in the new program year. Financial constraints have prevented the hiring of qualified FT faculty to teach, mentor and be invested in teaching. Currently, the COB depends disproportionately on PT faculty which ultimately affects student outcomes.

Recommendations from college discussions include:

1. FT faculty recruitment
2. Proposal for MBA degree program to IBHE
3. More Peer tutoring in the college
4. Improved course scheduling to ensure students take courses in recommended sequence.
5. Enforcement of student internships for first time freshmen cohorts.

Improvements: Curriculum changes aligning the Marketing Program with the new entrepreneurship emphasis of the College of Business include the introduction of new courses such as Social Entrepreneurship (MGMT 3755), and Introduction to Quantitative Business Analysis (QBA1500), Business Plan Development (MGMT 4505) and Career Fluency. The Career Fluency Experiential Learning program emphasizes soft-skills that cut across various programs and require active participation of students, faculty and staff.

Assessment as a Departmental Priority

Assessment outcomes are shared information and responsibility of all employees in the department and college. In particular, the ETS-MFT Business and exit survey results are shared in Departmental and College meetings as special presentations with discussions and scheduled follow-ups. Assessment is usually on at least one faculty and staff COB meeting agenda each semester. Faculty discuss and are challenged to form committees to address noted deficiencies in subject area performance. Each semester the results are revisited and compared to previous outcomes for continuous improvement. Hence the Marketing Program takes the assessment process seriously. Faculty and staff members of the college attend university and college wide workshops conducted at the beginning of each semester to address some academic issues that include student learning, study, professional dress codes, and the need for timely registration and graduation processes. At the curricular and advisory committee meetings, both faculty and staff share their views about student advising, student learning including ways to help students improve their learning, providing mentorship and internship programs. Each year faculty and staff members and administrators attend meetings and workshops conducted by experts and consultants on assessment, and student learning outcomes. Specifically, the College of Business Assessment Coordinators Workshop with Chicago State University (2012). Such workshops are helpful in understanding our process as well as the construction of syllabi and assessment tools. Scheduled workshops also address the specific accreditation requirements for specific colleges (for College of Business, Association of Collegiate Business Schools and Programs, ACBSP). Faculty and staff members also share their experience and observations about student learning and study habit and how their skills could improve through team work, timely submission of assignments, and prompt attendance of classes. Staff advisors make sure that course sequence is followed as much as practicable to minimize frustration and lack of attendance that result from taking courses out of sequence (for example, not grasping the content a particular course due to lack of a foundation course). When a student misses a class for some time, the academic advisor contacts the student to have a handle on the problem, whether personal or academic. Thus, members of the Marketing Program and the department of MMIS are actively engaged in the assessment process.

Publicizing Student Learning

Information about student learning and achievement is made public through various media that include the CSU Website, college electronic board mounted on the ground floor as well as the fourth and fifth floors, website and bill boards. A COB newsletter which has been proposed for 2017 is yet to be started. Other avenues used include during college meetings, town hall meetings, COB advisory board meetings, and alumni meetings. In those occasions, the dean of the college would take some time to gladly talk about student achievements and accomplishments including performance of college based student organizations in out of state and national competitions. The college also utilizes the university wide electronic medium "Up to the Minute" and the radio network to highlight, showcase, and disseminate information not only about student learning but also about performance of student organizations such as ENACTUS, National Association of Black Accountants (NABA), Investment Club, 3Cs, all based in the college of business. The performance of students in these organizations is a direct reflection or result of what they have learned in the classroom.

PART 2: ASSESSMENT PLAN

Program/Department: COLLEGE OF BUSINESS/MARKETING PROGRAM

Program Mission: The mission of Marketing Program is to produce successful graduates in the field of marketing who are well equipped in knowledge, communication skills, and technology to compete in a global marketplace and /or start their own business.

Program Objectives

1. Demonstrate application of marketing concepts in any business environment.
2. Analyze marketing functions in the flow of goods and services in the marketplace.
3. Prepare, and present cases and recommend solutions based on identified problems.
4. Evaluate and choose business opportunities based on sound business or marketing plan.
5. Prepare coherent steps required in conducting global business.
6. Recognize the importance of diverse workplace and its contribution to organizational performance.
7. Resolve ethical issue when confronted with a dilemma.

Student Outcomes

- a. Critically evaluate marketing functions performed by channel members in the industry.
- b. Organize thoughts to effectively communicate in any business environment.
- c. Integrate technology to provide solutions to marketing problems.
- d. Evaluate entrepreneurial opportunities.
- e. Integrate marketing concepts in a global business environment.
- f. Recognize the importance and contribution of organizational diversity in a business environment.
- g. Determine ethical issues and select appropriate actions.
